Ideal for the transport of ISONORM baskets 600x400 mm.

Structure realised from light alloy anodized plate with tube supplement and profiles in light alloy. Trolley body composed of one part no - junction plate. Patented edge - pinching system for exterior compartment. Turning door hinges which use, during the closing phase, a gasket integrated in the same structure. Continuous vertical hinges along the whole length of the trolley. Rugged chassis torsion stress resistant, made of rectangular galvanised steel tubes, with a rigid bumper in light alloy profile with integrated PVC. Doors openig to 270° with magnetic disposable blocking system during open position. Door closing guaranteed by two vertical stainless steel half rods, with blocking system at both ends. Horizontal push handles. Wheels in full grey anti-mark rubber with stainless steel cage roller. Interior compartment is equipped with vertical panels with horizontal shifting guides in nylon fibre glass lodged in vertical profiles in light alloy. The complete guide panel of interior trolley for easy cleaning and washing.

Equipped with nr. 2 vertical compartments.
