

REG

Suitable for transport and storage of sterile sets and suitable for the packaging logistics service and management of baskets used in the sterilisation process.

Built entirely with sheet metal and square and round section AISI 304 (1.4301) stainless steel profiles. Completed and suitably welded with TIG process, to avoid infiltration and/or dirt deposit, ensuring perfect hygiene. Standard electro-polished surface finish.

Shelf trolleys composed of load bearing frame and shelves adjustable in height every 110 mm. Available in series with flat sheet shelves and/or welded wire shelves. 125 mm non-marking grey rubber wheels.
