

## 111LL

Trolleys suitable for transport and for internal and external placement of soiled linen between hospital storage and the laundry.

Made in light alloy plate, anodised after trolley finished. Equipped with truncated cone opening on a longer side for an easier linen disposal (mod.111LL) or with tip-downdoor and lid for a total closure (mod.203CC). Horizontal reinforcement ribs each 120 mm approx. Horizontal push handle fixed at one head. Anti-mark PVC bumper in light alloy profile, along the whole lower trolley perimeter profile. Base chassis in light alloy profiles. Equipped with nr.4 wheels in grey anti-mark rubber diam.160 or 200 (2 fix and 2 swivel), disposition at the corners.

Suitable for soiled linen transport, equipped with a truncated cone with front opening.
