

DF4

Suitable for transport and storage of sterile sets and suitable for the packaging logistics service and management of baskets used in the sterilisation process.

Built entirely with sheet metal and square and round section AISI 304 (1.4301) stainless steel profiles. Completed and suitably welded with TIG process, to avoid infiltration and/or dirt deposit, ensuring perfect hygiene. Standard electro-polished surface finish.

Suitable for transport of n.8 baskets, 4 on each side.
