

CR50

Designed for box collection containing special hospitalwaste and general waste.

Homologated and certified by LNE with n. G060984/2 e G060984/4 for special waste GE/GRV.

Built completely with plates and profiles in reinforced light alloy. Equipped with four smooth closed walls and turning lid of 270°. Container completely welded with TIG procedure on junction lines. Fully waterproofed to prevent dripping of liquids. Lid in light alloy, varnished with yellow epoxidic powders; fixed at the container with 4 stainless steel hinges. Front closing guaranteed with 2 lever locks in light alloy with rings and pins in stainless steel. The rubber gasket is integrated in the edge profile which guarantees a perfect seal. Black PVC bumper along the whole bottom bumper. Equipped with two rigid rotational pins placed on the headings for the tipper and/or hoister. Complete with pulling bar in galvanised steel and endowed with wheels in grey anti - mark with roller bearings in stainless steel (two fixed and two swivelwheels with pedal brake).

Plastic, stackable containers with rounded trapezoidal form. Capacity 50 lt.
Suitable for mod. 370.
